

WHITE ELEPHANT GIFT EXCHANGE RULES

- Put all the wrapped gifts in the center of the room.
- Each guest who is participating in the exchange picks a number.
- #1 goes first. Pick a gift from the center of the room and open it.
- Move on to #2 (and so forth). Each person can either steal a previously opened gift, or choose a new gift and open it. If he chooses to steal a gift, then the person he stole it from may steal a gift from someone else or choose one from the center of the room.
- The only gift you cannot steal is the one that was just stolen from you.
- Continue this process until every person has a gift.
- Each gift may only be stolen 3 times, so it is frozen on its 4th owner.
- Once everyone has a gift, #1 has the chance to trade with any unfrozen gift.
